Using a simple SLR Canon, he finds the details of the world around him and interprets their place among us with minor computer enhancements. For some subjects, he incorporates beadwork to bring out the Indigenous spirit of the subject. When not wandering in the bushes, Harry is in some POW WOW arbor capturing the colorful regalia and motion of the dancers. He rounds out his photo journey by chronicling the events of the communities.

**Aldina Pictographs**

“...a pictorial sign or symbol...” Whether it is through the eye of the brush, the needle, or the camera, Carol and Harry see and capture the spirit of the world around them and convey their interpretation of that spirit to the seeing participant of their art. Aldina was and continues to be the spiritual centre of Muskeg Lake. It is fitting that these artists present their symbolism from this place of centrality.

**Carvings by Ken**  
Ken Nelson (306) 466-2300  
*No Email*

I've been carving wood about 40 some odd years. I've used a variety of different types of wood, but like using local wood such as birch & poplar but will try any other type. I prefer carving wildlife and western lifestyle themes. I have been commissioned for retirement, birthday and special gifts. One special commission was a wedding cake top. Some of my carvings are scattered in Canada, and some in Europe and one in Australia. Over the years, I have been an active member of Prairie Sculptors of Saskatchewan and the Kyla Art Group of Prince Albert. I've decided to join 12-40 so I can work with other local artists.

**Carol Lafond**  
(306) 222-1954  
[clafond@sasktel.net](mailto:clafond@sasktel.net)

I was given a camera on two occasions; one for Christmas when I was fourteen and the other when I turned 49! Using these gifts, I have been taking pictures, whether it is for family, friends or landscape for a great many years! I now use a digital camera! My favorite subject is capturing the beauty in nature; it is often inspirational and spiritual for me. Raised with the Nehiyaw language but not speaking it, I can recall the words or phrases my community would use. I see these words, on occasion, in the sunrise, the land, the sky. I am all the richer by sharing these scenes.

**Woodworking By Ernie**  
Ernie Letendre (306) 426-2509  
[ernie.let@sasktel.net](mailto:ernie.let@sasktel.net)

My wife and I moved to Leask December 1, 2019. Before I retired, after being employed as a locksmith for the RCMP for 25 years, we built a residential log home at Whiteswan Lake Resort where we resided for 15 years. I have always had a passion for working with wood and took up wood turning with a wood lathe six years ago creating such treasures as wooden urns, boxes, bowls and cups of various sizes and design. I have mentored many friends and enjoy sharing with them the love I have for wood turning. This year I have been experimenting with wood in epoxy. Feel free to visit my Facebook page and check out my one-of-a-kind creations.

It's all designing, cutting, fitting, assembling and finishing.” Come and see the tools and techniques involved in stained glass construction. Working mostly on commissioned pieces, she makes anything from sun-catchers to church windows. “I love the colour, the textures, the jewels. It's awesome to create beautiful things people enjoy.”
